Blueprint Studios

OUR COMPANY

- Founded in 2018 by Mr Bob
- Help game companies create assets and models
- Strong competition
- Website to be implemented

COMPANY PRODUCTS

Pre-Made 3D Models

The products that our company mainly sell are 3D Computer-Aided-Designs (CAD) that are premade by us before selling to other game companies. These 3D models will be catered to game development studios or companies that need new and unique models for their games. For example, a car model or a building model that the company can use in their game.

COMPANY SERVICES

Our company offers services to make custom models according to customers' specifications and references.

We will create, design and decorate the 3D models based on customer's specifications.

What others are saying
Inspired me!
"Before I found Blueprint Studios I was struggling to improve my game. Now when I use Blueprint Studios products, my game has drastically improved."
- Hadje Chad
Excellent pricing!
"Blueprint Studios offers one of the lowest prices for a model. After being in the CAD model industry for over 5 years, Blueprint Studios' price and quality makes it a great company to buy from."
- Victoria Elisabet
Quality Services!
"When i faced problems in setting up the products, Blueprint studios' support was fast and reliable. I would highly recommend Blueprint Studios to anyone needing CAD models."
- Luke Miriam

Benefits and Perks at Blueprint Studio

We want to **empower** and **inspire** our team members to do their best work every day - making sure they feel happy, healthy and fulfilled both inside and outside of the workplace.

Competitive Pay	Take-what-you-need paid vacation policy	Employee Benefits
We offer a competitive total rewards package, where every employee is an owner of our stock.	We encourage employees to find a comfortable work-life balance by taking as many days off as they need while still being able to perform their jobs satisfactorily. (We really mean it!)	We offer a comprehensive benefits package including healthcare, life insurance, short- and long-term disability, pension plans in accordance with the market practice in our locations. A complimentary global program that aims to provide family forming and mental wellbeing support to our employees across our offices.

Paid maternity and paternity leave	Commuter program
Our global parental leave policy allows up to sixteen paid weeks of bonding leave time for all qualifying new parents.	We are flexible about where we work and value connecting at the office. Our commuter benefits program is in place to support team members' commute to work via public transportation without the extra cost burden.

Our Hiring Process

At Blueprint Studio, we are committed to hiring the best people to join our teams. We designed our interview process* to help us understand how you think, what you are passionate about, and which skills and creative problem-solving abilities you bring to the table. And we want you to get to know us, too.

Curious about our culture? Connect with your recruiter to visit one of our All-Hands meetings, where we share what we are working on each week.

*The hiring process outlined above may differ by department and role.

Start Your Journey With Us !

Whether you love helping customers, making awesome designs and video edits or programming cool things, we have a job for you!

3D CAD Designers

CAD designers use technology to help generate designs for complex projects. These designs may be used to create 2D images, a process known as surface modeling, or 3D images, or solid modeling. CAD designers must have strong computer skills and extensive knowledge of design software. CAD designers must know their industry. In order to be effective, they must have knowledge of machines, engineering standards, mathematics, and the materials used to make their plans a reality.

Graphic Designers

We are seeking a new graphic designer to join our team. You will be designing a wide variety of things across digital and offline media. To be successful in this position, you will be a self-starter, capable of delivering brilliant creative ideas, and show amazing attention to detail.

Business Analysts

We are searching for an e-commerce business analyst to improve and maintain our e-commerce presence, processes, and sales. In this role, you will be tasked with analyzing key metrics about our business and its performance which you will use to generate insights and reports for marketing, UX, payment, and overall strategy. To ensure success as an e-commerce business analyst you should be adept at data mining, business intelligence, report writing, and process optimization. A top-notch e-commerce business analyst will be knowledgeable on a broad range of e-commerce activities, such as SEO, website design, sales funneling, conversions, and digital marketing.

IF YOU HAVE WHAT IT TAKES, JOIN US NOW !!
